

CCIA to host ACDBE Stakeholders Forum

Corpus Christi International Airport will hold an ACDBE Stakeholders Forum on Tuesday, September 27, 2016 at 5:30pm in the Aviation Conference Room.

ACDBE stands for “Airport Concession Disadvantaged Business Enterprise.” It is a federal program for qualified minority owned businesses. The FAA requires airports to have and to publicize their ACDBE programs in an effort to encourage minority owned businesses to seek out opportunities that exist in the airport business arena.

At the forum, CCIA will present the airport’s Concession Disadvantaged Business Enterprise program. The purpose of the forum is to get the information out and to engage the public, specifically those entities and representatives that support and promote ACDBE firms.

The airport is inviting all minority/women and disadvantaged business enterprises and other interested parties to attend.

ACDBE Stakeholders Forum
Tuesday, September 27, 2016 at 5:30pm
CCIA Terminal – Aviation Conference Room on 2nd floor
1000 International
Corpus Christi, Texas 78406
