Prepare to Takeoff and Run the Runway @ CCIA

On November 17, 2018, Corpus Christi International Airport (CCIA) will host a first of its' kind in South Texas. One of the runways at CCIA will be closed for a few hours to allow the community to experience the airport in a whole new way.

The 5K is a competitive, chipped run for both experienced and not so experienced runners and walkers. Prior to the start of the 5K, the Patriot Guard Riders will "ride" the runway beginning at 7:45am. Immediately following the ride, kids will be lined up for a quick 1K. The Wings of Texas will gather at the starting line and takeoff with their Captains and runners working as a team at around 8:08am. And at 8:12am, the 5K begins.

All money raised through registration and sponsorships will benefit USO South Texas. The USO is an organization dedicated to helping the men and women who are currently serving our nation. From free lunches on base to family events and entertainment – the USO is the force behind the forces. Registration runs through race day.
